I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a the cough
trial of the American Lead Pencil Company, New
York, I find them superior to any pencil in uso, even to
the Faber or the old English Cumberland Lead Peucil,
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils.

"EXCELSIOR" SPRING WATER.

THE WATER OF THIS SPRING IS BELIEVED TO be unequalled by that of any other in the far-famed valley of Saratoga. Its virtues are such as have secured it the high encomiums of all who have used it, possessing, as it does, in an eminent degree, cathartic, diurctic, alterative and tonic qualities.

From SAMUEL HENRY DICKSON, M. D., Professor Practice of Physic, Jefferson Medical College, Philadelphia, formerly of Charleston, S. C.:

PHILADELPHIA, November 15, 1865. I have been for a year or more pust in the habit of taking the water of the "Excelsior" Spring of Saratoga. Accustomed during the great portion of my invalid life Accustomed during the great portion of my invalid life to use the different waters of the several fountains which boil up along that remarkable valley, dependent, indeed, upon them for much of the comfort I enjoy, I am satisfied that the Excelsior Water is as well adapted as any other among them, if not more so, to the purposes for which they are generally employed. It is very agreeable, strongly impregnated with the carbonic acid, lively and sparking. \* \* \* I can heartily and conscientiously recommend it to all who need a gentle catharite and diuretic.

EUROPEAN TESTIMONIALS,

Received during the month of August, 1866. Messus. Chickenne & Bons—Gents: I have much pleasure in enclosing a document signed by the first composers, musicians and professors in Europe. I held your Planes in such high estimation (wide my certificate) that I felt it my duty to take one of them with me to Europe, to ascertain the opinion of my professional brethren. The enclosed certificate will prove how unanimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Mr. Collard, which I am sure must be gratifying to you.

I have the honor to be, gentlemen, yours very truly, LONDON, January 14, 1366. LONDON, January 14, 1366.

Mx DEAR SIB: I have great pleasure in saking youto convey to Messrs. Chickering the expression of my highest approval of their instrument. It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the fluest Grand Pianofortes that has ever come under my chestration; and the Messrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.

would be very wide world.

Dear sir, very sincerely yours,

Among the chief points of excellence of the Chief Among the chief points of excellence of the Chickering Planos, of which speak the renowned artists in their congratulatory testimonials to the Messrs. Chickering, are the greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

During the past forty-three years this firm has manuscripted.

80,000 PIANOS. In the construction of which they have introduced every

known and valuable improvement. They have invariably been selected and used by all of the world's acknowledged great artists who have visited this country professionally, both for private and public use. THALBERG.

I consider Chickering & Sons' Pianos, beyond com-parison, the best I have over seen in America. GOTTSCHALK.

I consider Chickering & Sons' Pianos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

Your Planes are superior to any I have ever seen i Your Planes are superior to any I have ever seen in this country or in Europe.

I have never heard a tone so perfect; it yields every expression that is needed in music, and its quality is capable of change to meet every sentiment. This is a rare power, and is derived from the perfect purity of its tone, together with its sympathetic, elastic and well balanced touch.

POZNANSKI.

During the past eight years I have constantly played upon the justly celebrated Erard Pianos; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence It may be satisfactory to our patrons and friends

among the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a few of whose names, besides those above, we append: LEO. DE MEYER. | GUSTAV SATTER. R. HOFFMAN. ABTHUR NAPOLEON.

LIVER COMPLAINT AND DYSPEPSIA.

It is estimated that seven-tenths of all adult allments proceed from a deceased and torpid liver. The biliary secretions of the liver overflowing into the stomach poison the antire system and exhibit the above symptoms. After long research, we are able to present the most remarkable cure for these horrid nightmare diseases, the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The reports that it relies upon mineral subsumces for its active properties, are wholly isise. For the satisfaction of the public, and that patients may consult their physicians, we append a list of its components.

Calmara Bark.—Celebrated for over two hundred years in the treatment of Fever and Ague, Dyspepsis, Weakness, etc. It was intreduced into Europe by the Countess, wife of the Vicercy of Peru, in 1640, and afterwards sold by the Jesuits for the corrowarprice of the east weight in silver, under the name of Jesuit's Proceeders, and was finally made public by Louis XVI, King of France. Humboldt makes especial reference to its febrituge qualities during his South American travels.

Another wonderful ingradient, of great use among the Spanish ladies of South America, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

Meszrs. P. H. Drake & Co.—I have been a great sufferer from Dyspepsia for three or four years, and had to abandon my profession. About three months ago I tried the Plantation Bitters, and to my great joy I am now nearly a well man. I have recommended them in several cases, and, as far as I know, always with signal benefit.
